STEM Workforce Summit: Countdown to Launch

*Jun 24, 2025, 2:30 – 4:00pm EST
on Microsoft TEAMS – [Register here](#)*

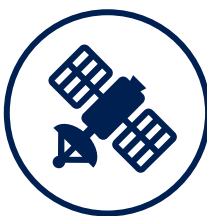

Underscoring the urgent demand for a skilled aerospace workforce, this webinar will demonstrate how NASA is uniquely positioned to help meet this challenge through strategic partnerships with industry and academia. It will also spotlight impactful collaborations already driving progress across the sector.

STEM Workforce Summit

Sep 23-25 – at Kennedy Space Center

Addressing the growing workforce shortages in the aerospace industry, NASA's Office of STEM Engagement is convening its grantees, industry employers, academia, and government agencies to chart a unified path forward to accelerate the preparation and placement of students into jobs.
(Limited Attendance; Registration: \$300)

STEM Workforce Summit: Mission Debrief

Dec 2025 – on Microsoft TEAMS

Further exploring strategies for addressing the demand for a skilled aerospace workforce, this webinar will strengthen collaborations and identify actionable next steps.
